Rick Martin  
82 Cremorne Street  
MALVERN SA 5061

Dear Rick

I write to wish you well in your new role as freelance artist/consultant and to thank you for the excellent work that you have done for this City over the past five years.

Your work in developing a national recognition for the Prospect Gallery and your planning and co-ordination of the Prospect Built Imagination and Prospect High Street Projects is widely acknowledged and appreciated.

These projects were models of community consultation and inter-disciplinary liaison and provided a lead to many others in the field. They would not have succeeded without your foresight, knowledge and planning abilities.

As Arts Development Officer, you brought professionalism in arts administration to the City and I know that this was appreciated by other managers. Your dealings between the various departments of Council - in particular the Planning Department - and other professionals was instrumental in securing successful outcomes to many aspects of program planning.

As Community Development Manager I appreciated your honesty, your sense of humour and your ability to deal intelligently with issues and problems. I also know that artists using the Gallery and the Gallery Advisory Committee members held you in high regard.

Yours sincerely,

I HAMILTON  
COMMUNITY DEVELOPMENT MANAGER
